EXPERIENCE

EZ Order

CodeArray Technologies Pvt

06/2022 - Present

Mumbai

An **Ecommerce mobile** app that allows you to manage your sales team, view real-time data of all your sales and client information, book sales orders on the go, and access full history of past transactions.

- **Developed** mobile application features using **React Native, JavaScript,** and **Redux Toolkit**, ensuring responsive and seamless user experiences.
- **Integrated** the **Razorpay API** to support **subscription-based payment workflows**, enhancing monetization features.
- **Implemented** real-time **push notifications** using **Firebase SDK** to improve user engagement and retention.
- **Designed** and developed **RESTful APIs** using **.NET Core Web API**, with secure **JWT-based user authentication** for protected endpoints.

EZ TimeTrack

CodeArray Technologies Pvt

06/2023 - Present

Mumbai

An **Attendance and Leave Management** mobile application automates tracking and managing employee attendance and leave requests, offering a user-friendly interface for both employees and administrators

- **Designed** interactive and user-friendly **screens for attendance management** and **leave applications** using **React Native**, ensuring a smooth user experience across devices.
- **Implemented** the **Geolocation API** for real-time **location tracking** and **geo-fencing**, enabling secure and accurate attendance logging by restricting unauthorized check-ins.
- **Developed** robust **Web APIs** to manage attendance data, incorporating **error handling, background tracking**, and performance optimization for reliable backend operations.

Nexify Fund Management

CodeArray Technologies Pvt

08/2024 - Present

Mumbai

A **fund management** system for legal expenses developed in **.NET MVC**

- **Integrated HubSpot CRM** with internal systems by developing custom REST APIs, automating plaintiff onboarding and enabling seamless data flow between marketing and case management platforms.
- **Optimized application performance** by implementing in-memory caching for user role and permission management, significantly reducing database load and improving page response times.
- **Integrated Online CheckWriter (OCW)** payment solution to enable wallet-based **ACH** and **wire transfers**, with robust exception handling and support for multiple payment methods.
- **Resolved storage inefficiencies** by analyzing SQL Server reports, fixing critical table storage issues, and implementing cache invalidation strategies to maintain data consistency.

EDUCATION

Bachelors of Computer Engineering

PVPPCOE

08/2019 - 05/2022

Mumbai, IN

GPA

8.9 / 10

Diploma in Computer Engineering

BGIT

2016 - 2019

Mumbai, India

Percentage

86 / 100

SUMMARY

Full Stack Mobile & Web Application Developer with **more than 3 years** of experience building user-centric solutions across mobile and web platforms. Proficient in **React Native** for cross-platform mobile development and **.NET technologies** (.NET Core, Web API, and MVC) for scalable backend systems. Skilled in **API integration**, performance optimization, and end-to-end feature development, with a focus on writing clean, maintainable code that enhances functionality and improves user experience.

KEY ACHIEVEMENTS

- Led a Cross-Functional Team of 4-5 Developers**
- Successfully guided, mentored, and collaborated** with team members to deliver high-quality mobile and web applications within project timelines. Fostered a productive team environment by promoting best coding practices, code reviews, and continuous learning.

SKILLS

C#	.NET Framework	.Net MVC
.NET Core Web Api		REST
Entity Framework Core		IIS
JavaScript	PgSql	React
React Native	SQL	Redux Toolkit
SQL Server Management Studio		

PERSONAL PROJECTS

Investment App

2025 - 2025

A mobile application for fixed deposit investment management

- **Developed** a mobile application for managing **fixed deposit investments**, providing users with a clear overview of their investment portfolio.
- **Implemented scheduled notifications** to alert users of **upcoming maturity dates**, ensuring timely actions and better financial planning.
- **Integrated local data storage** using **SQLite**, enabling offline access and persistent storage of investment details.
- **Enabled data export, import, and sharing** in **JSON format**, allowing users to seamlessly back up and transfer their investment data across devices or share it with others.
